Introduction ...

GTX is a global independent trading company
active in the import and export worldwide of top branded ITC products.

Specializing in shortages, obsoletes and excess inventory purchases.

The current product line-up comprises of:

- ✓ storage devices,
- ✓ CPU's,
- ✓ memory,
- ✓ multimedia products,
- ✓ consumer electronics,
- ✓ communication products and lots more.

GTX customers come from around the world.

GTX is fully dedicated to the reseller and retailer channel whose profile of operation is based on further resale of computer components, consumer electronics and office equipment.

We serve all businesses in the IT industry including:

- ✓ OEM,
- ✓ wholesalers,
- ✓ small and medium retailers,
- ✓ value added resellers,
- ✓ system integrators,
- ✓ power retailers,
- ✓ corporate resellers and LPO's.

The Vision & Mission Statement ...

IT IS OUR MISSION TO:

Exceed the expectations of our customers through excellent service, reliable advice and attention to details.

IT IS OUR VISION:

To be recognized as a quality organization, focused on service and customer satisfaction.

Our Business Values...

In cooperating with our clients we consistently achieve and maintain the following critical objectives:

- ✓ TEAMWORK and COOPERATION with each other that we achieve our greatest success.
- ✓ Showing RESPECT for our fellow workers and those we do business with, recognizing the importance of their contribution to our success.
- ✓ Being HONEST in everything we do and say.
- ✓ Focusing in QUALITY in everything we do and striving to continuously improve upon what we do and how we do it.
- ✓ Being COMMITTED and LOYAL to each other...our customers, our suppliers, our fellow workers, and our company.

Our Strength ...

Clients Oriented Policy

We guarantee our partners a decent level of service and individual approach, based on a high degree of confidence, equality and fairness.

Professional Team

Our team brings together highly qualified specialists with a higher profile education and international certification, as well as the extensive experience in information technology and telecommunications.

Developed logistics system

Due to the successful cooperation with leading international transportation and logistics companies, we ensure the optimal and reliable delivery of your goods within secured terms.

Flexible pricing and payment system

The long-term cooperation and direct contracts allow us to get the most favorable terms from manufacturers and to ensure best price level for our dealers. Our pricing policy and payment system has maximum flexibility and convenience with respect to our partners.

Thoroughly listen and understand our customers' operations and market environment.

The people, who build our company's success, are experts in their areas of expertise, speak multiple languages and – due to the company's structure – perfectly understand and keep track of external markets.

Therefore, they can provide our customers with reliable advice on making the right decisions.

We combine extensive knowledge of the local markets with a strong international team to bring value to our vendors and customers.
